April 2011

Lake Shore Baptist Church has recently started a paper recycling program, and we invite you to participate!

All of the paper contributed is recycled by *GreenFiber* and used to make cellulose insulation. Here's the best part: once we contribute a certain amount, we get paid for our paper! The more we recycle, the more we earn.

You'll find the green bin just behind the church's parking lot. Bring your **newspapers, phonebooks, magazines, office paper, cardboard and construction paper**. The heavier, the better because it will help us meet our minimum requirements. Please breakdown cardboard boxes. (Items *not* acceptable include glass, aluminum, metal, Styrofoam, plastic bags or bottles, or anything that has been contaminated by food.)

Tell your neighbors and friends!
This is a **COMMUNITY PROGRAM!**
